Music Lessons

2017-2018

Johnson STEAM Academy is pleased to offer student music lessons for woodwind, brass, percussion and string instruments through our JSA STEAM Enrichment program. Music Lessons are once per week and may be scheduled during the school day with careful consideration given to academic block time and individual student classroom learning needs.

Research studies show a high correlation between playing a musical instrument and high academic achievement. Music lessons offer our students the chance to explore their interest in playing a musical instrument and to learn the lifelong skill of self-discipline and responsibility. Mastering a musical instrument is also a great confidence builder — and it's fun!

So sign up now by returning the attached enrollment form!
